GENERAL USE GUIDE

Nautico Verde is a highly concentrated cold process seaweed product. It can be used for foliar and soil applications. This product is tank mix compatible with most products. A compatibility test should be performed prior to use. Shake product prior to use. Maintain agitation during mixing and application. When used as directed this product does not supply all nutrients required by plants, and is intended as a supplement to a soil fertility program based on soil tests

| | |
|---|--|
| Golf Course Greens | Apply 1.5 to 4.0 fl oz per 1,000 sq ft in enough water to provide sufficient foliar coverage. Repeat application every 7 to 14 days. May be combined with liquid fertilizers, other bio-stimulants, and surfactants |
| Fairways, Tees And Athletic Turf | Apply 0.5 to 1.0 gal per acre in enough water to provide sufficient foliar coverage. Repeat every 2 to 4 weeks |
| Shrubs and Ornamentals | Drench with 1.0 to 2.0 fl oz per gal of water at transplant or throughout the growing season. Repeat drench every 14 to 28 days. Foliar applications can be made with 1.0 to 2.0 fl oz per gal of water every 14 to 28 days. |
| Turfgrass Recovery and Grow In | Apply 1.5 to 3.0 fl oz per 1,000 sq ft every 7 days or 3.0 to 6.0 fl oz per 1,000 sq ft every 14 days. |

KEEP OUT OF REACH OF CHILDREN AND STORE MATERIALS IN CLEARLY MARKED CONTAINERS

Do not store in temperatures below 40°F.
