

# TURF TRADE GREENS PROGRAM

Foliar nutrient program with plant extracts and L-amino acids maximizes uptake of nutrients resulting in healthier turf, rapid green up, and long-term color response

**Improved Stress Tolerance**  
**Better Rooting**

**Improved Photosynthesis**  
**Optimal Nutrient Uptake**

**18-3-4 ZetaPlex N** Balanced nutrient package with 18 L-amino acids. Low dose applications result in excellent color and controlled growth response on cool season turf.

**Rate:**  
3 to 6 oz  
per 1000

**Liquid Trace** Complete micro-nutrient package utilizing glucose compounds and organic acids for nutrient complexing and increased uptake. Seaweed extract improves plant defense mechanisms.

**Rate:**  
1 to 3 oz  
per 1000

**1-0-15 ZetaPlex K** Unsurpassed foliar availability of potassium for proper plant water relations and cell turgor pressure. L-amino acid package allows plant to respond optimally during summer heat, drought, and traffic pressures.

**Rate:**  
3 to 6 oz  
per 1000

**9-0-0 ZetaPlex Ca** Calcium uptake is enhanced with plant derived L-amino package. This combination provides better rooting, cell strength, plant hardiness, carbohydrate conservation, and improved plant respiration.

**Rate:**  
3 oz  
per 1000

## OPTIONAL PRODUCTS:

**Promote** Stress Management  
**Assure II** 5-16-4

**Rate:**  
3 oz  
per 1000
