

Dynamic Calcium

Powered by EBS[®]

FOLIAR[™]
PRECISE

Proprietary nutrient formulation powered by EBS.

Product Description/Benefits

Dynamic Calcium is a brand new formulation using three natural and modified plant metabolites specific for protecting calcium. Each plant metabolite performs well in its own niche. The low-molecular weight plant metabolites allow for movement through the stomatal pores and transcuticular pores; the high-molecular weight modified plant metabolite chelates the calcium for secondary uptake via the soil. This engineered redundancy ensures rapid uptake and longer nutrient availability in all growing conditions

- Focused amino acid package increases photosynthetic efficiency, and prolongs life of chloroplasts.
- Multiple complexors and chelators provide a dramatic increase in uptake efficiencies
- complete bio-stimulant package
- 1.5 oz - 6 oz
- great tank mix partner with 18-3-4, Minors and 1-0-15

Rate per acre

64- 256 oz

Rate per 1,000 sqft

1.5-6.0 oz

Guaranteed Analysis

Nitrogen (N).....7.00%
Calcium (Ca).....7.00%

Derived from: urea, ammonium nitrate, calcium chloride, amino acids.

Available pkg sizes; 2x2.5 gl,
250 gl available upon request
