

Proprietary formulation of amino acid polymer and powered by EBS.

## Product Description/Benefits

NutriFree is biodegradable nutrient enhancer. This high molecular weight structure holds a large population of negative charges. These negative charges gently complex positively charged metals, keeping them in solution.

- NutriFree Concentrate increases nutrient uptake and ensures predictable nutrient availability.
- NutriFree Concentrate unlocks the tied-up nutrients that already exist in the soil, turning them into plant usable nutrition. NutriFree prevents nutrient-to-nutrient interactions and chemical changes in the spray tank and the soil.
- Completely biodegradable and will not accumulate in the environment.
- Acting as a buffer, NutriFree can be used in high pH and hard water

Rate per acre	Rate per 1,000 sqft
10-20 oz	0.22-0.44 oz

Guaranteed Analysis	
Potassium (K).....	9.0%

Derived from: soluble potash, amino acid polymer and bio-stimulants

Available pkg sizes; 2x2.5 gal
