

Dynamic 6-20-5

Powered by EBS

Proprietary nutrient formulation w/Carboxylic acid.

Product Description/Benefits

Dynamic 6-20-5 is a plant nutrient solution that contains a unique fertilizer additive. When used in conjunction with sound fertility and agronomic practices can increase plant root development. This can result in more productive growth and greater tolerance to stressful environmental conditions.

Dynamic 6-20-5 can be used in transplant solutions, in ornamentals as a soil drench or directed spray and applied directly to turf.

- Increased plant root development
- More productive growth during stress periods
- Increases tolerance to stress during stressful environmental conditions
- Complete micro-nutrient package
- Great for seeding programs
- Complete bio-stimulant package
- Great for ornamentals as a soil drench
- Great for summer nutritional programs
- Ask about our aeration recovery program
