

Aqua-Fus-Syn GCG & LCG

Turf Apothecary
+ Bio-Synergy

Proprietary formulation with 3 way Surfactant system + Penetrator+Bio Stimulants

Product Description/Benefits

Aqua Fus-Syn is a granular wetting agent product that is enhanced with Turf Apothecary and Bio-Synergy. It will aid in the reduction of LDS and has easy usage for almost every situation.

- Hydroxy increases Nutrient Retention and Nitrogen Uptake
- Hydroxy WaterGuard technology is designed to improve infiltration, prevent and overcome water repellency, increase soil moisture, improve water distribution, increase water use efficiency resulting in better turf quality.
- 200lbs/Acre will provide 28oz of Hydroxy WaterGuard per Acre and provide up to 6 weeks of efficacy.
- Turf Apothecary improves root structure, improves soil structure, improves nutrient efficiency and reduces stress
- Bio-Synergy improves soil structure, improves nutrient availability, improves turf turgidity and reduces nutrient usage.
- Multi-Directional Wetting Agent
- 25% Calcium
- Humic/Fulvic/Carboxylic Acid
- Increased Nitrogen Efficiency

	Rate per acre	Rate per 1,000 sqft
